17" LCD MONITOR - LM6017

The new 17" LCD monitor is aimed at broadcast environments where space and consumption are key factors. It is provided with a high resolution TFT panel (1280x768) in native 16:9 with "Full Colour" and wide viewing angle.

As standard it comes with one DVI connector for computer input as well as analogue components in SD (576i & 480i) and HD (1080/50i & 1080/60i). SDI options (SD and HD) allow user to extract embedded audio as analogue or AES/EBU.

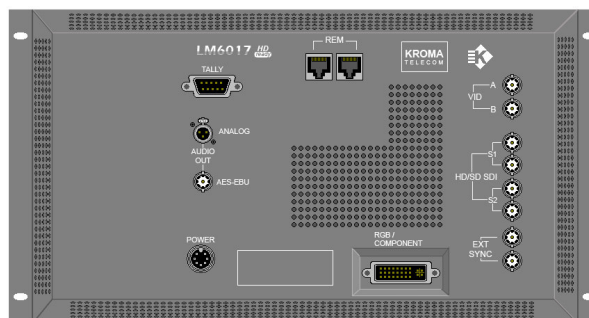

With hardly 10ms of response time, LM6017 displays camera movements with no lag. Its 16:9 aspect ratio can be switched to 4:3. Other available features are: Tricolour Tally led, Remote Control, Safe Area, Blue Only, Cross Pulse, Overscan, External Sync, Picture in Picture (PiP) and Preset Colour Temperatures (3.200º, 6.500º, 9.300º).

It can be rack-mounted into standard 19" or put on a desktop. It is only 6U high and is powered by external power supply.

LM6000X07: 2x PAL/NTSC (UIT R-BT470 / SMPTE 170M)

LM6000X06: 2xSDI SD with loop and audio de-embedding (SMPTE 259/259M-C)

LM6000X08: 2xSDI HD with loop and audio de-embedding (SMPTE 292/296M/274M)
